

About PaperFree

Helping business and government become 'free' of the burdens and limits of paper documents

PaperFree is the recognized leader in information capture and enterprise content management solutions. We integrate proven data capture, content management, and strategic outsourcing solutions for business and government needs. And, we do this while providing a customer-centric service approach.

We help businesses and government agencies 'free' themselves from burdensome paper documents by implementing a variety of technologies and services geared towards enabling the digital enterprise. Our specialty in capture, management, and analysis of business critical information helps our customers drive their processing efficiency, increase information delivery throughout the enterprise, and ultimately reduce costs.

We are founded on the firm belief that information is often overlooked or under utilized and we focus on the ability to drive success of any business. We excel at bringing the market's best technologies together with best practices to achieve a higher return on investment for all information that travels throughout the enterprise.

PaperFree's commitment to their customers and ability to respond to their ever changing needs makes us the ideal technology partner for your enterprise content management needs.

We are an experienced and trusted partner who can provide end-to-end capture and content management solutions. For more information please contact us at 888-726-7730 or www.paperfreecorp.com.
